Best-selling author and illustrator Nick Sharratt teams up with Ladybird to create a larger than life story that is sure to be a big success. *This Dinosaur is So Big!* is a magnet book filled with brilliant and bright illustrations, engaging text and eight giant magnets. Small children will love using the huge magnets to create their own silly sentences such as “This dinosaur is so big... it can eat a boat, play football with a bus, or swallow a sea monster!”

The colourful magnets encourage children to be creative whilst they read as well as providing a great bonding opportunity for parents and children. The book also comes with a clever padded case to store the magnets in to use another day.
